HYDROBIOLOGIA
Volume 432, 1 August 2000

Influence of photoperiod on vegetative propagule production in three turion-producing races of *Hydrilla verticillata* (L.f.) Royle
Kerry K. Steward 1–8

Water chemistry variability in the lower intertidal zone of an estuary in the Seto Inland Sea, Japan: seasonal patterns of nutrients and particulate compounds
Paolo Magni, Shigeru Montani 9–23

Dynamics and trophic roles of heterotrophic protists in the plankton of a freshwater tidal estuary
Koenraad Muylaert, Riet Van Mieghem, Koen Sabbe, Micky Tackx, Wim Vyverman 25–36

Factors regulating bluegreen dominance in a reservoir directly influenced by the Asian monsoon
Kwang-Guk An, John R. Jones 37–48

A new Philocheras species (Decapoda, Crangonidae) from Hansa Bay, Papua New Guinea
S. De Grave 49–56

Functional morphology of the muscles in *Philodina* sp. (Rotifera: Bdelloidea)
Rick Hochberg, Marianne Klauser Litvaitis 57–64

Factors regulating summer phytoplankton in a highly eutrophic Antarctic lake
G. Mataloni, G. Tesolín, F. Sacullo, G. Tell 65–72

The rotifer fauna of arctic sea ice from the Barents Sea, Laptev Sea and Greenland Sea
Christine Friedrich, Willem H. De Smet 73–89

Long-term dynamics of *Asplanchna priodonta* in Lake Windsborn with comments on the diet
Heike Kappes, Christoph Mechenich, Ulrich Sinsch 91–100

Light- and nutrient-limited periphyton in low order streams of Oahu, Hawaii
Scott T. Larned, Scott R. Santos 101–111

A 14 000-year record of paleoenvironmental change in the western basin of China's third largest lake, Lake Taihu
Wenchuan Qu, Bin Xue, M. D. Dickman, Sumin Wang, Chengxin Fan, Ruijin Wu, Pingzhong Zhang, Jianfa Chen, Yanhong Wu 113–120

Activity traps and the corer: complementary methods for sampling aquatic invertebrates
Terho Hyvönen, Petri Nummi 121–125

***Ryocalanus spinifrons*, a new species of Ryocalanidae (Copepoda: Calanoida), from the south-western part of Sagami Bay, Japan**
Shinji Shimode, Tatsuki Toda, Tomohiko Kikuchi 127–133

Ecology and dynamics of two intertidal algal communities on the littoral of the island of São Miguel (Azores)
Ana Isabel Neto 135–147

Effects of marine ciliates on survivability of the first-feeding larval surgeonfish, *Paracanthurus hepatus*: laboratory rearing experiments
Naoki Nagano, Yukio Iwatsuki, Takashi Kamiyama, Hideaki Nakata 149–157

Ultraviolet sunscreen compounds in epiphytic red algae from mangroves
Ulf Karsten, Thomas Sawall, John West, Christian Wiencke 159–171

Survival and energy metabolism in an oxygen deficient environment. Field and laboratory studies on the bottom fauna from the profundal zone of Lake Esrom, Denmark
Kirsten Hamburger, Peter C. Dall, Claus Lindegaard, Ida B. Nilson 173–188

Effects of plant density and age on the mating system of *Kandelia candel* Druce (Rhizophoraceae), a viviparous mangrove species
Xiao-yong Chen 189–193

Habitat specificity of littoral Chydoridae (Crustacea, Branchiopoda, Anomopoda) in Plastic Lake, Ontario, Canada
Birgitta Tremel, S.E. (Libby) Frey, Norman D. Yan, Keith M. Somers, Trevor W. Pawson 195–205

Characterization of benthic bacterial assemblages in a polluted stream using denaturing gradient gel electrophoresis
Derek G. Cody, Robert T. Heath, Laura G. Leff 207–215

Trace metals in marine, brackish and freshwater prawns (Crustacea, Decapoda) from northeast Algeria
C. Abdennour, B. D. Smith, M. S. Boulakoud, B. Samraoui, P. S. Rainbow 217–227

A new sampler for collecting invertebrates in submerged vegetation
Ola Marklund 229–231
